

The Bradford at Night Charter

Our Commitment:

Proud supporter of Bradford at Night

Bradford at Night is a strong, respectful, honest voice for the evening and night time economy, working to promote business development and investment for the benefit of its members and the wider community. We will work towards a vibrant, varied, and safe environment for customers and staff, proactively developing projects to increase business and interest in Bradford's evening and night time economy.

Zero tolerance of abusive language and behaviour

We will never accept abusive language or behaviour to our staff or our customers. All incidents WILL be reported to the relevant agencies and police.

Respect everybody

We will be respectful of the rights, identities, and experiences of all individuals.

Support WalkSafe for everybody

We will support and actively encourage our staff and customers to use the WalkSafe app.

Share intelligence and information

We will openly share intelligence using approved systems, including on SentrySIS, to empower and support fellow members.

The Bradford at Night Charter: Toolkit, Reporting and Reviewing

Every organisation committing to the Bradford at Night Charter will be provided access to a toolkit, which offers resources and guidance to ensure that they are supported to meet the commitments they pledge to uphold.

Members who sign up to the Charter will be supported to develop their business to help create a vibrant, varied and safe environment, from reviewing the impact of systems implemented, to training opportunities for staff.

Activity within the toolkit includes:

- Support for staff and visitors to identify what can be improved and what is working in your space;
- Training for staff and members in creating a positive culture;
- Resources for implementing positive change in the physical space and working policy and practice;
- Support and information on organisations to signpost members/visitors to who may be in need.
